terrible blow to China's national pride and one which, if directed at an aggressive one which, if directed at an aggressive country like England, or France, or Russia, would be immediately followed by war. Secretary Bayard appreciated the situation perfectly. He regarded it as a terrible breach of diplomatic propriety, but an important election was pending, and it would have been ruinous under the circumstances to interfere. He explained this to Chang, and assured him that he was powerless to move in the matter, and so the bill became move in the matter, and so the bill became a law. Chang made the best explanation he could to his government and the incident, so far as the American people were concerned, passed into history and was

But it was not forgotten by Chang. Lake most of his race, he is blessed with a long memory and a patient nature. A few months later he was recalled to China to accept an important post in the Chinese Foreign Office. Mr. Blair's nomination was cabled to Pekin within an hour after it had been sent to the Senate. Chang im-mediately cabled for Mr. Blair's record on the exclusion act and the Chinese question generally. When it was sent to him he discovered that while Mr. Blair had opposed hasty action on the exclusion bill, he was quite as severe in his statements upon the Chinese as any of his associates in Congress.

It was the opportunity he wanted. He showed the speeches to Li Hung Chang, the Premier of the Chinese empire. He told him that Mr. Blair was a member of the American Congress that passed the exclusion act while the treaty was pending. He urged Mr. Blair's rejection, and it was at once agreed to. Had he chosen to remain silent, no objection to Mr. Blair would probably have been made.

PUBLIC DEBT STATEMENT. Decrease of \$8,000,000 in the Government Receipts for April.

Special to the Indianapolis Journal. WASHINGTON, May 1 .- The Treasury Department monthly debt statement, issued to-day, shows a reduction in the public debt during April past amounting to \$1,-514,327. The bonded indebtedness of the government, exclusive of bonds issued to the Pacific railroads, amounts to-day to \$610,771,520, a decrease during the month of \$2,741,260. The surplus in the treasury today, including \$20,906,928 in subsidiary coin, is \$57,283,808, against \$58,625,230 a month ago-a decrease of \$1,141,422 during the month. National bank depositories today hold \$24,280,172, or about \$170,000 more

than a month ago. during April aggregated \$26,045,831, against \$34,017,041 in April a year ago. Customs receipts were \$12,591,990, against \$19,907,446, a falling off of more than \$7,000,000, mainly due to the free sugar tariff law which went into effect the 1st of last month. Internal revenue receipts were \$11,-420,455, a decrease of half a milhon compared with April, 1890, while receipts from miscellaneous sources all decreased full half a million and aggregated \$1,452,785. Expenditures during April aggregated 25,331,194, or four millions and a half more than in April last year. The increased expenditure on account of refunding direct taxes to the States during the month aggregated about five miliions and a half. Pension payments for April amounted to but \$264,191, and for the ten months for the current fiscal year aggregated \$97,174,355, against \$90,583,210 during the corresponding ten months of the preceding year. The Comptroller of the Currency reports a de-crease in the circulation of national bank notes during April past of \$1,384,178, and of \$19,148,463 during the past twelve months.

PENSIONS FOR POSTAL CLERKS.

Revival of an Old Movement-No Telling Where It Would Stop if Once Started. Special to the Indianapolis Journal.

WASHINGTON, May 1 .- Second Assistant Postmaster-general Bell, who was for some time, at the beginning of the administration, superintendent of the railway mail service, and other officers of the railway branch of the Postoffice Department are out in interviews this evening advocating a pension list for postal clerks. This movement is given birth by the recent disaster on the Lake Shore in Ohio, in which several postal clerks were killed and others badly crippled, probably for life. The proposition to create a pension list for railway postal clerks is an old one, and although it receives commendation in many quarters and is, withal, popular in the agitated two, and three, and five years ago in the House when bills looking to that end were under consideration. It is the pre-cedent that is feared. If a pension list is created for any class of employes in civil positions it is feared that it will spread. It will be remembered that it was urged for the life-saving crews of the country, a class of federal employes who are constantly in danger of death or permanent injury in the line of duty. If the postal clerks are to be pensioned it is argued that life-savers must go on the list, as also the men who are compelled to travel about the country as special agents, those who are in charge of dangerous machines in navy-yards and gun foundries, those in the the Marine Corps, health officers who are stationed at the ports, and finally all who are on the civil rolls of the federal government just as it may seem. The postal clerks here who understand the temper of Congress and the obstacles in the way do not have much hope of success.

SPECIAL TOBACCO LICENSES

Wiped Out Yesterday by the Operation of the McKinley Bill.

WASHINGTON, May 1 .- Under the provisions of the McKinley tariff act, beginning to-day, all special taxes imposed upon dealers in the leaf tobacco, dealers in manufactured tobacco, manufacturers of tobacco and cigars and upon peddlers of tobacco are repealed. The law, however, requires that these various classes of dealers shall register their names, place of business, etc., with the local collector of internal revenue, with the exception of the dealers in manufactured tobacco, who are not required to register. The number of the dealers of the latter classes, according to the report of the Commissioner of Internai Revenue for 1890, was 603,088, who paid a tax of \$2.40 each. It is said at the department that the abolition of this special tax of \$2.40 will cause a loss to the government of \$1,600,000 annually. The new provisions of the law regarding the caution label required to be used by the punufacturers of cigare also goes into effect to-day. It eliminates from the portion of the label reserved for the use of the government all foreign matter, such as designs, ornaments,

Treasury Making an Effort to Get Subsidiary Coin Into Circulation,

WASHINGTON, May 1. - The first of the steps contemplated by Secretary Foster for getting the subsidiary coin now in the treasury into circulation was taken to-day when the following notice, signed by United States Treasurer Nebeker, was prepared at the Treasury Department and will be sent to banks and bankers throughout the United States: "The coinage of the standard silver dollars authorized by the act of Feb. 28, 1878, having been discontinned by the act of July 14, 1800, the Treasurer finds it inconvenient to furnish them otherwise than in redemption of silver certricates or treasury notes, but will for-ward silver half dollars, quarter-dollars or dimes to any address, free of cost for transportation by express in sums of \$200 or more, or by registered mail in packages of \$70 in exchange for any other kind of money deposited in the treasury or any sub-treasury or depository bank. Remit-tances for this purpose will be received by the Treasurer and the assistant treasurer and the assistant treasurers in the form of drafts on any bank or banker in Washington. New York, Boston. Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, New Orleans or San Francisco.

MINOR MATTERS.

Secretary Foster Again Talks on Finances-More Bonds Likely to Be Retired,

WASHINGTON, May 1.—Secretary Foster, in speaking to an Associated Press reporter to-day concerning financial matters, said that, in his opnion, the government would co., Elkhart, Ind.

be able to take care of all its obligations, and that, in addition to \$296,000,000 bends already retired by this administration, it would, in his opinion, add a considerable amount in the two years that remain. Concerning the \$100,000,000 legal-tender redemption fund in the treasury, the Secretary said he did not expect that any condition of affairs would rise which would make it necessary for the government to touch it. He intimated, however, that this fund might be used without legislative action in case of absolute necessity to prevent any discredit to government obligations. Mr. Foster said that the last statement made by Mr. Leech, the Director of the Mint, was an admirable one. There were some statements in it, however, which he would have expressed differently had he prepared the paper himself.

Direct Tax Refunded. WASHINGTON, May 1.-The following payments have been made by the Treasury Department up to April 30 under the act of March 2, 1891, to reimburse the States and Territories the amount of the direct tax levied under act of Aug. 5, 1861: Arkansas, \$156,272; California, \$208,247; Colorado, \$22,190; Delaware, \$70,772; Illinois, \$956,961; \$22,190; Delaware, \$70,772; Illinois, \$200,301; Indiana, \$719,144; Kansas, \$60,982; Maine, \$357,702; Maseachusetts, \$696,108; Michigan, \$420,865; Minnesota, \$86,924; Missouri, \$646, 358; New Hampshire, \$181,891; New Jersey, \$382,615; New York, \$2,213,381; North Carolina \$377,836; Ohio, \$1,332,026; Tennessee, \$382,912. Total, \$9,282,636.

All the Seals That Can Be Taken.

Special to the Indianapous Journal. WASHINGTON, May 1.—Secretary Foster has fixed the maximum limit of seals to be taken in the season by the North American Commercial Company at 96,000. The agent of the United States at the seal islands, by the instructions now being prepared, is vested with the broadest discretion as to limiting this number as his judgment may dietate, as the interests of the United States in the preservation of the seal fisheries demand.

Counting the Cash.

enal to the Indianapolis Journal. WASHINGTON, May 1. - The committee counting the cash in the treasury has completed the cash-room, bond-room, redemption division, interest division, sinking fund of the District of Columbia, and \$12,000,000 of the \$180,000,000 in the reserve vanits. The count so far shows that everything is correct.

General Notes.

VERY MERRY MAY-DAY ABROAD.

[Couluded from First Page.] strikes and the best means to be taken in order to avoid them, took place, most appropriately to-day. What transpired at this meeting is not known, as the meeting was held in private. It is judged, however, the commission simply talked over the plans for its future meetings and arranged other details of its permanent organization.

Four Policemen Wounded. PARIS, May 1 .- A mob threatened the police station at Clichy, and a body of gendarmes sallied out to disperse the crowd. The mob took refuge in a wine-shop, which they barricaded. The police attempted to dislodge them and were met by a volley of revolver shots. Four policemen were Later in the afternoon the non-union

men went to work under police protection. The union painters of Cleveland, who have demanded a slight increase in wages, are still out. With the exception of the lumber-shovers' and painters' strikes, there are no other labor troubles here.

Quiet at Berlin. BERLIN, May 1 .- Herr Liebknecht addressed a Socialist meeting this evening. The attendance was much smaller than was expected. Last May day twenty thousand Berliners observed the day as a holiday, but to-day there was practically no cessation of work. Prince Bismarck re-ceived double the number of votes that Schmalfeld received, but 2,000 less than was cast for his National Liberal prede-

Collision at Marseilles. MARSEILLES, May 1 .- This evening a collision occurred between the police and crowd of roughs who were trying to break the cordon, and the military were called on for assistance. They were received with a shower of stones, and some were injured. Seventeen persons were arrested.

Stopped Off at Terre Haute.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., May 1 .- "Old Hutch" arrived here to-night from Evansville. He had been drinking beer on the train and quarreled with the porter about the price. He left the train here, although he had a through ticket for Chicago. An effort was made to have him reboard the train, but he refused, and started up town in a cab. No trace has been had of him since.

White-Capped a Correspondent.

WACO, Tex., May 1.—W. R. Reel, cor-respondent of a Kansas City newspaper, omewhat noted for its sensational proclivities, was arrested the former part of the week on the charge of having written a belous article published in that paper, in which was mentioned the names of several well-known ladies. Last night, when Reel was released on bond, he was kidnaped, driven out of town, given seventy lashes on the bare back and tarred and feathered.

Injured in a Wreck. CLEVELAND, O., May 1 .- An express train on the Wheeling & Lake Erie railroad ran into a train of empty coal cars near Norwalk, O., to-night. The engine turned over in the ditch and six coal cars were wrecked. Engineer Elmer Butler, fireman oseph Herron and baggagemaster Pat Nagle were quite badly hurt. The express was running sixty-five miles an hour at the time of the wreck.

THREE MURDERERS RUN DOWN.

Story of the Fugitives' Lives in the almost Trackless Wilds of Brown County.

Special to the Indianapolis Journal.

COLUMBUS, Ind., May 1.-At 1 o'clock to-day there was a general stir upon the streets of this city, occasioned by the arrest of three tough-looking characters. It was soon learned that the three men who were handcuffed were murderers, William Pucket and his sons, Ambrose and Pleasant Pucket.

The story of their crime dates back to the

last presidential election, having been committed near Irving, Estill county, Kentucky. The cause of the tragedy grew out of a pocket-knife, which the Puckets claimed they had loaned to Henry Hall, a neighbor. They all started home about noon, and when one mile from the voting precinct William Pucket, the father, picked up a club and struck Hail a deadly blow, felling him to the ground. Then the boys fell upon him, beating his head into a jelly. The father and sons fled the country, and succeeded in evading the officers for three years, till last night, when they were arrested. Some time ago they were located in the wild lands of Brown county, near the postoffice called Peter Cooper. On Thursday morning two officers from Kentucky arrived in this city and went to Nashville, where they seenred the assistance of the sheriff of Brown county, and started to make the arrest. Peter Cooper postoffice is about twelve miles south of Nashville, in the roughest part of Brown county, and furthest from any railroad. In a deep hollow was the home of the Kentucky mountaineers. Each was married and had home in which he kept his family. The father resided a mile from the sons. The Puckets were known to be game when aroused, and their premises were accordingly approached with great care by the of-ficers, who waited for darkness. The huts n which the murderers lived were some two miles from the postoffice and were approached with considerable caution. None but politicians had ever ventured in where they lived. Their houses had but one room each, without a window or a floor, a chimney or a stove. The beds stuck into the cracks of the building, and they cooked by a fire in the center of the building upon the ground. The two sons were arrested first and showed fight before giving up. They were handcuffed together and left in charge of two officers, while the others went to the residence of the father and placed him under arrest. The entire party was much surprised. The wife of one of the young men was but little taller than a vard-stick, and weighed sixty pounds, but the officers declared that she was a ter-

The charge of murder was preferred against William Puckett, while the sons were charged as accessories. There never was a more wretched looking set of individ nals seen in this city than these three murderers. The father is about fifty-five years of age, and in rags. The sons were barefooted and in the same condition.

The Delamater Failure. MEADVILLE, Pa., May 1 .- To-day was most exciting one here in a financial way. it being the last in which the unsecured creditors of the Delamater Bank could accept the proposition of that firm to be satisfied with 50 cents on the dollar. Among the heavy signers to the agreement to accept 50 per cent. was the State of Pennsylvania, \$110,000; A. M. White, of this city, \$25,000, and Crawford & Co., for a large sum. At the meeting of the committee to-night, Hon. G. W. Delamater threw a bomb in their camp be quietly announcing that there had been a hitch in the proceedings, and he could make no definite promise to fill his part of the contract until to-morrow. It is now thought they are unable to secure the cash for the first payment due to-morrow.

Financially Embarrassed. NEW YORK, May 1.—Judge O'Brien has granted an attachment for \$2,499 against the Opera-glass Supply Company, No. 12 West Twenty-eighth street, in favor of the E. W. NEW YORK HOUSE-SMITHS.

NEW YORK, May 1 .- The threatened strike fixed for May 1 began in earnest this morning so far as the house-smiths are concerned, and with them all incidental trades are out. This morning it was stated that at least 4,500 men, representing different trades, are on strike. Clarendon Hall was taxed to its utmost to accommodate the crowds of workmen who poured in from every street and avenue in the vicinity. At times there must have been at least three thousand perspiring men jammed in the place. The meeting was presided over by Mr. George Warner, president of the House-smith's Union. Mr. Warner made a stirring appeal to those present to stand firmly together. Their demands were not only just and right but were in keeping with the times. So far as the result of the strike was concerned, Mr. Warner had no doubt, and without being in any way premature, he was free to say that already victory was in sight. The main element which the men wanted was determination. There must be no faltering: they must go steadily shead, shoulder to shoulder, and

as peacefully as possible.

The work of reviewing reports from the different shops was then entered upon, which set forth the state of affairs, principally in the iron-working shops. These reports came from delegates who had visited the Empire coin-works, the Union coinworks and the Curry iron-works. At all these places it was said the demands of the men had been resisted. When the announce-ment was made by one of the delegates that the firm of Cammure & Haas had sigmittee of the union the hall fairly shook with cheers. The strikers appear to be more than usually determined to go into the fight. They seem to be well organized, and the proceedings of the forenoon showed clearly the fact that the organizers of the movement have been at work for some

This afternoon it was stated that there were about four thousand house-smiths out in this city, Brooklyn and Jersey City and about seventy-five firms were involved. The agreement with the House-smiths' Union as drawn up stipulates that none but union men shall be employed, and only for eight hours a day. The agreement extends over a period of one year. It was learned this afternoon that nineteen firms had acceded to the demands of the Framers' Union. There are still six-teen firms to hear from. Six hundred framers will return to work to-morrow morning and about the same number will remain on

Evening Demonstration. NEW YORK, May 1 .- Small armies of men marching to the tune of the Marseillaise and other airs, carrying aloft red flags and transparencies, the latter denouncing all monopolies, approached Union Square tonight from various directions to participate in the great eight hour labor demonstration neld under the auspices of the Central Labor Federation and the Socialistic Labor Party. It was estimated that there were eight thousand people in the park, and in front of the plaza, and at side stands on Broadway and Fourth avenue. The police arrangements consisted of about seventy-five footmen, twenty-five mounted, a lot of detectives, and Central office men. St. Louis Carpenters Succeed in Raising Wages 5 Cents an Hour, St. Louis, May 1.—The carpenters and oiners have once more scored a victory against their employers. Two years ago they fought for 35 cents an hour and an eight-hour day, and won. To-day they asked for 40 cents an hour, and got it. All the carpenters in the city were yesterday notified to report at headquarters at 10 A. M., to-day, under penalty of a heavy fine for non-appearance, with a consequence that the ball was crowded to overflowing when the meeting was called to order. They got down to work right away, and the first thing done was the reading of replies to their demands from the bosses. Out of 350 bosses who received the demands, 272 have granted the advance, ten have refused, and the balance have not yet been heard from. The men were ordered to report for duty to those bosses who have conceded the demands, while the others have been instructed to remain out until he advance is granted.

The architectural iron-workers, to the number of 250 men, have gone out for the eight-hour day and an advance in wages of trom 312 to 712 cents an hour, according to grade of work. The marble-setters have struck for an advance of 25 cents a day. They notified the bosses some time ago of their demands and received verbal answers from some of the bosses agreeing to the raise, but the men want written contracts. and also want their employers to recognize eight hours as a day's work. The St. Louis team-owners, 500 strong, have won their fight against their employers. They asked for \$4 a day and got it.

Quiet Celebration in Chicago. CHICAGO, May 1 .- A perfect day, large crowds and great enthusiasm characterized the labor demonstration for eight hours in Chicago. The Brick-layers' Union. about two thousand strong, did not take part in the parade, that trade having already been accorded the eight-hour day. The other trades-unions, however, were generally represented, and, with bands, and banners, and floats, on which their respective handicrafts were being exemplified, they marched away, about ten thousand strong. The route lay through some of the principal streets of the business district, and the parade was dismissed at the lake front, where speeches were delivered by local labor leaders. Among the speakers were Thos. J. Morgan, late candidate for Mayor on the Socialist ticket; Robt. Swallow, president of the Trade and Labor Assembly; J. Sewes. editor of a New York labor organ, and Jas. H. Carter, of Denver, Col. Among the various resolutions adopted were those asking the new city administration to conscientionaly enforce the eight-hour ordinance and asking the City Council to in-

Leaders of the workingmen say there is no prospect of trouble arising. In Covington, Ky., all the carpenters have struck for a nine-hour day at \$2.50 a day, and brick-layers and other workmen say that if non-union cerpenters are employed they will stop. The builders declare they will not accede to the demand The carpenters say their real purpose is to weed out the incompetent "saw-andhatchet men" who are not carpenters, but can do some rough work, and are willing to work for \$1.50 a day.

manded that only one apprentice be allowed each firm, and that any work less than for a quarter of a day should be paid for as though one-fourth of a day had been consumed. Any time over a quarter should be charged for as half a day. Hitherto the painters secured \$2.50 a day for nine hours' work. Some men received \$3 per day, while others received 30 cents an hour. It is probable the difficulty will be amicably djusted before many days.

Boston Building Trades,

Boston, May 1 .- An agreement has been entered into by the Master Builders' Association and the Stone-masons' Union that settles the wages and the hours for stonemasons during the season of 1891. The agreement is that nine hours shall constitute a day's work and eight hours on Satnrday; that all time work between 5 P. M. and 7 A. M. shall be paid for at the rate of time and a balf. All work on Sundays and legal holidays shall be paid for at doubletime rates, wages to be 42 cents per hour.

Painters and Tinners Strike.

Special to the Indianapolis Journal. FORT WAYNE, Ind., May 1 .- Two hundred painters went out on strike this morning for the eight-hour day and 85 cents an hour. A meeting will be held and an attempt made to settle the controversy by arbitration. One bundred tinners and sheet-iron workers are also on str ke, demanding that nine hours constitute a day's work, at 272 cents per hour.

Amounts to Little in the West, DENVER. Col., May 1. - Reports from various points in Colorado, New Mexico and Wyoming indicate the strike will be of but little importance in these districts, and, in fact, it is doubtful if any strike of any kind will be carried on, as fully 90 per cent, of the coal-miners work by the ton. and not by the day, and a reduction of hours could not do otherwise than reduce wages, without in any way benefiting the workmen.

Strike Notes.

There is neither strike nor suggestion of strike apparent at Baltimore. The relation between capital and labor in Philadelphia is one of peace and mutual good understanding. There has been no agitation of the eighthour question in Reading or at any point

At Mount Carmel, Pa., instead of a strike there was a general resumption of work yesterday morning. Since the disastrous Reading railroad strike no effort has been made to maintain the Knights of Labor and Amalgamated Association in that section.

THREE GIRLS BURNED TO DEATH.

Fatal Flames in a Fire-Works Factory in New York. NEW YORK, May 1 .- Three young girls were burned to death in a fire-works factory in the annexed district this afternoon. The fire broke out in the one-story frame building No. 1, 902 Union avenue, in Morris ania. The building was occupied by Geo. Kreamer, manufacturer of fire-works. The flames were started by an explosion of powder. They spread rapidly, and in a few seconds the entire building was afire. Several alarms were sent out, but the firemen were powerless to save the building. Lillie Hammond, nineteen years old; Mary Lynch, seventeen years old, and Jennie Harpley, seventeen, were caught in the burning building and burned to death in sight of the crowd that had assembled to

watch the fire. George Kreamer, forty vests old, was badly burned about the head and body, and Lottie Horn, fourteen years old, was horribly burned about the body. The damage to the stock was \$2,000, and the loss on the building \$4,000.
